

TOWN OF GROVER

RECYCLING NEWS

There have been some issues with recycling and garbage pickup lately, so this letter is to serve as some reminders of what to do and I've included some contact information for town officers. There is also a short letter on zoning included in this mailing.

- ✓ Recycling must be CLEAN. Due to dirty recycling over 40% of our pickup had to be dumped one day.
- ✓ Bags cannot weigh over 40 pounds
- ✓ Recycling should NOT be in with garbage. I have had some missed pickups lately and when I go to get the garbage I find that there is recycling in the garbage or the bags are VERY heavy. The garbage company will not pick up these bags.
- ✓ Recycling does not need a sticker, garbage bags do. If there is no sticker on a garbage bag, it will be left at your driveway and not picked up.
- ✓ Recycling should be put into tubs of some sort that will be left at the end of your driveway after pickup. These can be simple Rubbermaid tubs, cut off barrels, etc. Clear bags can be used if necessary, but the tubs work much better as the garbage company rips open the bags and they create more garbage.
- ✓ Recycling should be sorted according to the attached sheet received from our garbage company.
- ✓ If recycling doesn't continue at the current rate or go up, the town risks losing state recycling grant funds.

Thank you for your cooperation
